Fundamentals of Export Compliance

A 2-Day Course intended for Export Compliance Professionals and Management with Export Responsibility**DESCRIPTION:**

The course will provide an in-depth review of regulatory requirements under the Census Regulations, Export Administration Regulations, OFAC regulations and U.S. Customs export regulations. It will also cover practical advice for implementing and improving corporate export compliance procedures and for managing incidents of non-compliance. **Topics will include:**

- AES and related export procedures
- Customer and destination screening
- Classifying products under the CCL
- Particular issues with custom-made components
- How to determine if a component is “specially designed” under the CCL 600 series or ITAR
- Obtaining classification decisions
- How to determine if your export requires a license
- License applications and license exemptions
- End Use Controls
- Navigating the various OFAC embargoes
- Managing compliance by foreign subsidiaries and affiliates
- How to determine if a product is a “defense article” under ITAR
- Technical data, deemed exports and technology control plans
- NAFTA certificates of origin, recordkeeping and penalties
- How to respond to agency inquiries and enforcement actions
- Developing, implementing and improving an export compliance process
- When and how to make a voluntary self-disclosure
