STATE OF LAX & CARGO

Please join the Foreign Trade Association as we partner with U.S. Customs and Border Protection (CBP) as we review the current state of the Los Angeles International Airport (LAX) with Area Port Director LaFonda Sutton-Burke and Trade Section Chief Christine Hogue. The Area Port of LAX encompasses CBP operations at LAX, Las Vegas McCarran International Airport, and six User Fee Facilities (John Wayne, Ontario, San Bernardino Palm Springs, Van Nuys, and Victorville), five express consignment facilities, an international mail facility (IMF), a deferred inspection office, and general aviation and air cargo operations at numerous facilities in Southern California. In Fiscal Year 2019, more than 13M international passengers and more than \$73B of cargo was processed by LAX (35M cargo shipments, and 82M mail shipments). Register today for this valuable discussion.
