Foreign Trade Association Presents:

Webinar- The Mexico tariffs, the USMCA and their Impacts on the Trade Community Updates and new requirements

DESCRIPTION:

The United States has reached an agreement with Mexico and Canada in the renegotiation of the North American Free Trade Agreement (NAFTA) and now has been added the tariff on Mexican goods - 5% on June 10, 10% on July 1, 15% on August 1, 20% on September 1 and 25% on October. On what goods will the tariff be applied? How will it be enforced?

The stated goal of the new United States-Mexico-Canada Agreement (USMCA) is a mutually beneficial win for North American businesses. What does the new USMCA mean for you and your business? How is the new tariff on Mexican goods likely to impact American companies? How is it likely to impact the passage of the USMCA? This 60-minute webinar will cover the impact of the new tariff, the dynamics of the USMCA, their impact on foreign direct investment and the significant regulatory changes the trade community likely faces, including higher bonds, larger import payments, different rules of origin and changes to the dispute resolution mechanism, assuming the agreement is ratified by the U.S. Senate and the legislatures of the other countries. The clock has started on Congressional consideration of the agreement in the U.S. Better start planning now for the new tariffs and the outcome of the USMCA, so your company is ready!

NAFTA to USCMA
